UNIVERSITET

# Nyhetsbrev Fysiska institutionen

APRIL 2017 | LUNDS UNIVERSITET

Kära kollegor!

I slutet av mars skickade vi ut den årliga psykosociala enkäten. Resultaten är inne och vi håller nu på att sammanställa dem. Det första som utmärker sig är att svarsfrekvensen stigit rejält, vilket såklart är positivt för att få en representativ bild av situationen på institutionen. Det hänger troligen ihop med en av föregående års slutsatser: att vi skulle diskutera frågorna innan enkäten skickades ut, vilket verkar ha givit ett positivt utslag denna omgång. Även om jag hade hoppats på ännu fler svarande är jag väldigt nöjd med svarsfrekvensen. Resultaten diskuteras nu inom styrelsen och med avdelningsföreståndarna, för att därefter tas upp på ett bredare plan inom institutionen.

Överlag speglar resultaten av enkäten en tillfredsställande arbetsmiljö på Fysiska institutionen. Framför allt upplever de flesta att det dagliga arbetsklimatet och samarbetet fungerar väl, vilket kanske är en av enkätens viktigaste punkter. Dessutom skönjer vi en något positiv trend på den frågan under de senaste åren. Detsamma gäller för arbetsledningsklimatet, som legat konstant högt. Många upplever också att man fritt kan framföra åsikter om ledningen, vilket är viktigt i en transparent och demokratisk arbetsmiljö. De flesta anser sitt arbete vara meningsfullt och stimulerande, och känner att de har möjlighet att påverka det. Samtidigt motsvarar arbetsuppgifterna allt som oftast ens utbildning. Dessa punkter har däremot legat mer eller mindre konstant under en lång tid.

Tyvärr finns det också mindre bra indikationer från enkäten. Arbetsbelastningen ligger på fortsatt höga nivåer jämfört med tidigare år. Oro för förändringar i arbetssituationen verkar tyvärr stiga. Denna punkt är högst bland svarande med tidsbegränsade läroanställningar, vilket jag tolkar som att det egentligen gäller oro för framtiden och inte nuvarande anställning som frågan egentligen handlar om. En slutsats är att det verkar rimligt att dela upp resultaten efter tidsbegränsade och tillsvidare läroanställningar för bättre tolkningsmöjlighet av svaren, eftersom åsikterna hos dessa

Dear Colleagues!

At the end of March the annual psychosocial questionnaire was sent out. It is now closed and presently we are in the process of evaluation. The first thing that strikes is that the frequency of answers has increased substantially, which of course is essential for a representative picture of the status at the department. One probable reason is the conclusion from the survey last year: there was a need to discuss the questions before the survey was posted, which seems to have given a positive result in the present survey. Of course, an even better response had been better, but I am very happy with the response frequency. The result will now be discussed in the board and with the division head before it is discussed in general at the department.

The general trend from the survey is positive to the work environment at the department. Specially, the majority find the work environment and the day to day collaboration good and this is some of the surveys most important points. In addition, there is a slight positive trend on these questions over the last years. The same trend is valid for the management climate, that has been at a high level over the years. A majority feels that they freely can express opinions on management, which is important in a transparent and democratic work environment. Most employees feel that their work is meaningful and stimulating, have possibility to structure and influence it. Normally the work tasks correspond well to the education. For these questions, the response has been fairly constant over the years.

Unfortunately, there are also some not so good indications from the survey. The work load is still on high levels similar to the levels from previous years. The worry for changes in the present work situation seem to increase. This point is highest among on permanent staff, which I interpret more as a worry for the future and perhaps not so much about the present position. From this it can be concluded that the division of the answers

två kategorier skiljer sig en del. Just de tidsbe-  
gränsade trivs förutom på tidigare nämnda fråga  
i allmänhet särskilt bra.

Årets enkät innehöll en del förändringar mot  
tidigare år. Till exempel sorterades de svarande  
in efter deras arbetskategori istället för specifik  
tjänst. Det fanns en fråga som riktade sig spe-  
cifikt till doktorander och deras förhållande till  
handledaren. Där uppgav de allra flesta att de  
har ett tillfredsställande förhållande, vilket så-  
klart är bra, även om det hade kunnat vara ännu  
bättre. Två nya frågor berörde för andra gången  
i enkätens historia trakasserier på arbetsplat-  
sen. Det är glädjande att se att en stor majoritet  
aldrig observerat respektive blivit utsatta för  
trakasserier på arbetsplatsen. Att det i enstaka  
fall över huvud taget har upplevts är dock inte  
acceptabelt. Jag vill därför uppmuntra de som  
upplevt eller utsatts för trakasserier att prata  
med respektive chef eller mig för att komma åt  
problemet. Till sist fanns möjligheten att i slutet  
av enkäten skriva egna kommentarer, vilket  
ledde till fler svar än jag hade förväntat mig där  
några var särskilt intressanta.

Knut Deppert  
prefekt

between permanent and time limited positions  
improves the possibility to interpret the results,  
since for this question we have a large difference.  
The non-permanent employees have, except for  
this question, generally very positive answers.

In this year survey, there was some changes  
compared to the previous years. The division  
was based on working category instead of posi-  
tion. There was a specific question to the PhD  
students about their working relation to their  
supervisor. The main response was that the  
relation was good or fair, which of course is  
good, but it could have been better. Two new  
questions (second time) concerned harassments  
at the working place. Fortunately, a majority  
has neither observed nor been harassed at the  
working place. A few cases were indicated and  
this is of course not acceptable. I would like to  
encourage all that observe or have been harass-  
ment to talk to nearest superior or directly to the  
head of department so that we can deal with the  
problem. At last there was a new possibility to  
write personal comments and suggestions, and  
here the frequency was higher than expected  
including some interesting comments.

Knut Deppert  
Head of Department

## RACIRI SUMMER SCHOOL 2017: GRAND CHALLENGES AND OPPORTUNITIES WITH THE BEST X-RAY- AND NEUTRON SOURCES

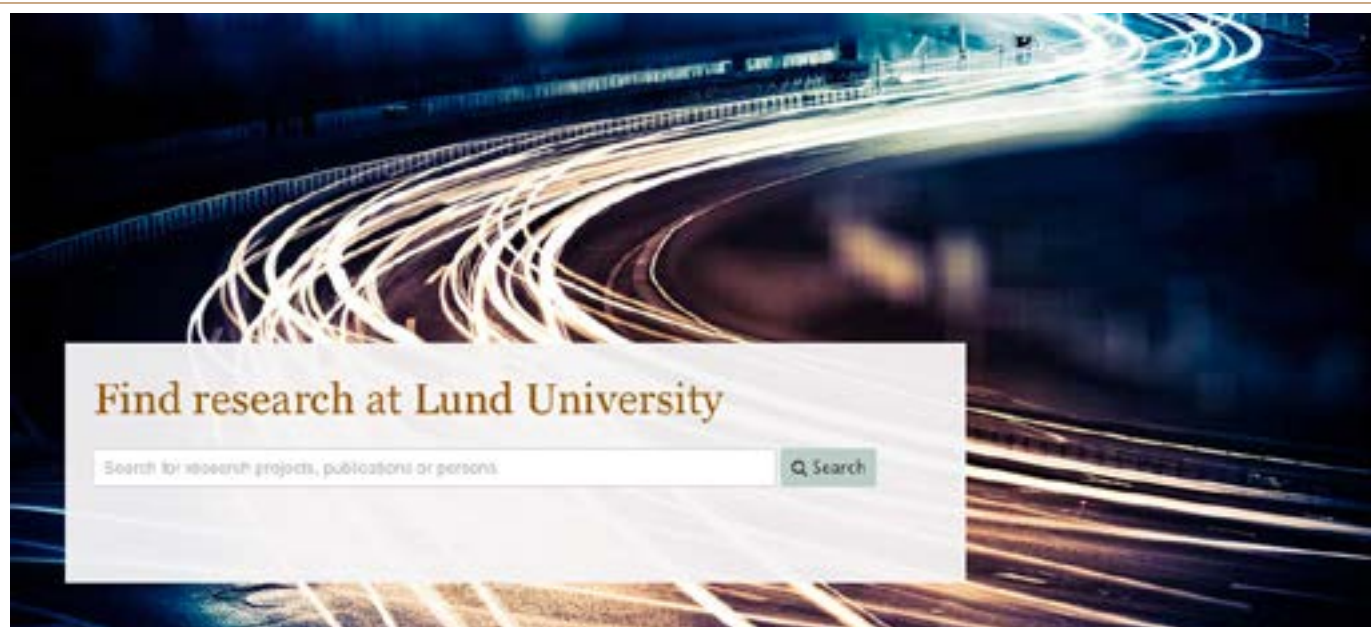

The Swedish Research Council just announced their Call for Application for Participants from Swedish Institutions for the RACIRI summer school 2017 with the theme: Grand Challenges and Opportunities with the Best X-ray- and Neutron Sources.

RACIRI Summer Schools mainly address **PhD students, master (diploma) students** in their final research year, and **young postdoctoral researchers** from institutions of the three partner countries.

The RACIRI Summer School strives for strengthening the scientific knowledge base of young researchers in advanced materials design with a strong connection to the excellent research infrastructures in the region and to contribute to the necessary interdisciplinary literacy in relevant scientific fields and disciplines.

### READ MORE HERE:

- Information at VRs webpage ([in Swedish](#))
- RACIRI homepage ([in English](#)) (<http://www.raciri.org/>)
- Announcement from VR with application details ([in English](#))

Please join all other researchers and fill in information about you and your research in LUCRIS. As it turns out, the information gathered in LUCRIS will be of importance for allocation of funds in the future.

## LQM (LIBRARY QUESTION OF THE MONTH)

- I have heard that the library can support part of the publication fee when I publish Open Access?

- That's correct and this is how You apply:

1. When you have decided which journal you will send your article to, fill in the form and send it to the University Library.
2. The University Library will inform you whether or not support will be granted.
3. When the article has been accepted, we will pay the entire APC and internally invoice 50 % of the fee to your cost centre (kostnadsställe).

More information here

<http://www.ub.lu.se/en/publish/open-access/oa-journals/support-for-publication-fees>

## INFORMATION MEETING ON THE SWEDISH TAX SYSTEM AND HOW TO DECLARE TAXES IN SWEDEN

Representatives from the Swedish Tax Agency will guide you through the things you need to know.

For: International staff

When: **Thursday 20 April, 2017, 13.00** (Sharp, please)-16.00

Place: **Edens Hörsal**, (in a yellow brick building, bottom floor), map.

Sign up for the meeting by sending an e-mail to [asa.thormahlen@pers.lu.se](mailto:asa.thormahlen@pers.lu.se) no later than the **17 April**.

## INBJUDAN

### Capacity through Culture – The Role of Culture in Education and Research

Det är Lunds universitets kultur- och museiverksamheter som bjuder in till ett kreativt samtal om hur kulturverksamheterna kan bidra till utbildning och forskning.

**Var: Lunds universitet, Skissernas Museum. Finngatan 2 i Lund.**

**När: måndag den 8 maj 2017.**

Syftet med konferensen är att diskutera hur museer och samlingar kan göras relevanta för utbildning och forskning, och genom goda exempel stimulera deltagarna till att fördjupa sig i ytterligare samarbeten för att involvera kulturverksamheter i utbildning och forskning.

Det är gratis – men anmälan görs via <http://delegia.com/culture>

Mer information [http://staff.lusem.lu.se/staff-pages/media/news/Program\\_LUKOM\\_webb.pdf](http://staff.lusem.lu.se/staff-pages/media/news/Program_LUKOM_webb.pdf)

## ATTEND SULF'S SEMINAR "WORKING IN SWEDEN"

**When: 18th April, 12-15**

**Where: Lund University, LUX:C121**, Helgonavägen 3

Registration is required: at [sulf.se/kalender/lund-wor-](http://sulf.se/kalender/lund-wor-)

The seminar will address questions such as:

- How does the Swedish labour market work?
- Which are the governing agencies that "rule your world"?
- Who needs a residence permit?
- How does the social security system work?
- Are you eligible for public healthcare?
- Am I entitled to unemployment benefits?
- Are only Swedish citizens entitled to Swedish pensions?

The seminar is held by Åsa Rybo Landelius, SULF

**The network Women IN Great Sciences – WINGS – is happy to invite you to a workshop called**

**A TOOLBOX FOR INCREASED PRODUCTIVITY – FROM EFFICIENCY TO EFFECTIVENESS!**

**Aim:** The aims of the workshop are 1) to provide new work strategies and to shift the focus from *what you are working with and the content* to *how you are working and the process of your work*, and 2) to learn how to reduce stress levels at work.

**Content:** In the workshop, you will learn three productivity tools and apply them to your own work situation. The tools are easy to implement and have a large impact. In addition, you will learn about causes for stress within the academic environment and different ways to deal with it. The workshop has been much appreciated among researchers and has been given at Lund University, KTH The Royal Institute of Technology and University of California, Berkeley.

**Teachers:** The workshop instructors are Åsa Burman, PhD in practical philosophy from Lund University and management consultant within Finish on Time, and Henrik Levinsson, senior lecturer at the Department of Psychology, Lund University.

**Conditions:**

- The workshop is open for all researchers (doctoral students, postdocs, associate professors, senior lecturers, professors etc.) but priority will be given to female researchers who have recently been awarded their PhDs.
- First come, first served is applied, however, WINGS strives to have a balance of members from the Faculties of Science, Medicine and Engineering.
- Participation in the workshop is free of charge, but since this is a highly demanded workshop, registered persons who will not show up will be charged with a fee.

**Date:** Monday 24 April

**Time:** 09.00-16.00, including lunch

**Location:** Gamla biskopshuset, Biskopsgatan 1, Lund

**Register** at <https://goo.gl/forms/eQA2ICqvZFGYbBXH3> on Friday 7 April at the latest.

**About the teachers**

**Åsa Burman** has a broad background and professional experience from business, academia and social entrepreneurship. Currently she is a teacher at the Department of Philosophy, Stockholm University, and management consultant within Finish on Time. She has conducted research as a Fulbright Scholar at the University of California, Berkeley, and has been a management consultant within McKinsey & Company. Åsa has a PhD in practical philosophy from Lund University, where she recently held a position as Assistant professor of human rights.

**Henrik Levinsson** is senior lecturer in psychology since 2009. Since 2004, he has taught over 9000 hours, including the areas of cognitive psychology, forensic psychology, mental illness, statistics, ethics and science theory, and by supervision of bachelor and master theses. Henrik has a broad experience of teaching also outside of the academia. In 2012, he was awarded Qualified Teaching Practitioner (CTP) by the Pedagogical Academy at the Faculty of Social Sciences, Lund University. Henrik's research interests are in the borderland of psychology, philosophy and medicine.

### RESEBIDRAG TILL YNGRE LOVANDE FORSKARE FÖR DELTAGANDE I "U21 WORKSHOP ON INTERCULTURALITY AND MULTICULTURALISM: THE CHALLENGES FOR CHANGING SOCIETIES"

Områdena erbjuder härmed att nominera yngre lovande forskare (Early Career Researchers) till att delta i en U21 workshop med tema Interculturality and Multiculturalism: the challenges for changing societies.

Early Career Researchers (ECR) workshops är en verksamhet inom U21-nätverket som vänder sig till yngre forskare i början av sin karriär som bygger upp internationella forskningsnätverk. Deltagande i en sådan workshop ger goda möjligheter till nätverksbyggande och karriärutveckling. Workshopens breda tema möjliggör för forskare inom många olika områden att delta.

Workshopen äger rum den **4-6 oktober 2017 vid Universidad de Católica de Chile i Santiago, Chile**. Lunds universitet har möjlighet att skicka två, ev. tre deltagare. Deltagarna tilldelas ett resebidrag på 20 000 kr vardera för att täcka delar av rese- och hotellkostnaderna. Kostnader för deltagaravgift och huvudparten av måltiderna täcks av arrangörerna.

Tema för workshopen:

"There are at least two major social contexts that bring about challenges regarding interculturality and multiculturalism in changing societies: human migration and intergroup relations involving indigenous - non-indigenous communities.

The ECR workshop will address these concepts by stimulating discussion among participants and distinguished keynote speakers as well as academics that have developed research on these issues from diverse disciplines such as Philosophy, Social Psychology, Economy, History and Anthropology. In addition, there will be the opportunity for participants to learn about specific methodological tools involving quantitative and qualitative approaches and the opportunity to present their research via poster or Pecha Kucha presentations".

### TRAVEL GRANTS FOR PARTICIPATION IN THE U21 EARLY CAREER RESEARCHER WORKSHOP ON "INTERCULTURALITY AND MULTICULTURALISM: THE CHALLENGES FOR CHANGING SOCIETIES"

The Faculties and Research Centres may nominate promising young researchers (early career researchers) to participate in the U21 workshop with the theme Interculturality and Multiculturalism: The Challenges for changing societies.

Early Career Researchers (ECR) workshop is an activity within the Universitas 21 network. The key target groups for the annual ECR workshop are early career researchers/junior faculty who are establishing international research networks and are at the beginning of their career, i.e. within 8 years of their PhD being awarded. Participation in this workshop provides excellent opportunities for networking and career development. The workshop's broad theme is to enable researchers in many different fields to participate.

The workshop takes place from **4 to 6 October 2017 at the Universidad Católica de Chile in Santiago, Chile**. Lund University intends to send up to three participants. The participants are awarded a travel grant of SEK 20 000 each to cover part of the travel and hotel costs. The participation fee and most meals are covered by the organizers.

The theme of the workshop:

"There are at least two major social contexts that bring about challenges regarding interculturality and multiculturalism in changing societies: human migration and intergroup relations involving indigenous - non-indigenous communities.

The ECR workshop will address these concepts by stimulating discussion among participants and distinguished keynote speakers as well as academics that have developed research on these issues from diverse disciplines such as Philosophy, Social Psychology, Economy, History and Anthropology. In addition, there will be the opportunity for participants to learn about specific methodological tools involving quantitative and qualitative approaches and the opportunity to present their research via poster or Pecha Kucha presentations".

För att komma ifråga ska de nominerade uppfylla följande kriterier:

- Ha anställning vid Lunds universitet
- Ha dokumenterad forskningserfarenhet av relevans för workshopens tema
- Ha avlagt doktorsexamen inom de senaste åtta åren, d.v.s. från och med 2009 och framåt.

Universitetet ser gärna att våra yngre forskare ges möjlighet att delta i workshopen, varför ni ombeds att nominera och inbördes rangordna upp till två yngre forskare per område/centrum-bildning/motsvarande. Förslag med kortfattad motivering insänds per epost till [ulrika.qvist\\_mathiesen@er.lu.se](mailto:ulrika.qvist_mathiesen@er.lu.se) senast **måndag 24 april 2017** kl 12.00. Förslaget ska innehålla namn, kort CV samt angivande av forskningsområde (på engelska).

Det slutliga urvalet kommer att göras av vicerektor Stacey Ristinmaa Sörensen tillsammans med sektionschef Jesper Falkheimer.

För mer information se inbjudan och program <http://universitas21.com/event/details/285/early-career-researcher-workshop>

To be eligible, the nominee must meet the following criteria:

- Be employed by Lund University
- Have documented research experience relevant to the workshop's theme
- Have completed their PhD within the last eight years, that is, from 2009 onwards.

The university would like to give our young researchers the opportunity to participate in this U21 workshop. You are therefore asked to nominate (and rank) up to two young researchers per faculty/research centre/equivalent. Your nomination with a brief motivation should be sent by email to [ulrika.qvist\\_mathiesen@er.lu.se](mailto:ulrika.qvist_mathiesen@er.lu.se) no later than **Monday, 24 April 2017**, at 12:00. The nomination should contain the nominee's name, a short CV and a description of his/her research (in English).

The final selection will be made by the Pro Vice-Chancellor Stacey Ristinmaa Sorensen and the Head of Division for Research, Collaboration and Innovation Jesper Falkheimer.

For more information see the invitation and programme <http://universitas21.com/event/details/285/early-career-researcher-workshop>

## RADIATION SAFETY COURSE IN A FEW WEEKS, STRÅLSKYDDSBILDNING PÅ GÅNG!

In order to work safely with ionizing radiation from radioactive sources and accelerators it is essential to have knowledge of the radiation as such, as well as all concepts and regulations that are entailed.

We invite you to a radiation safety course, either on the **18th of April, 9-12 (in swedish)** or on the **19th of April, 9-12 (in english)**.

Course lecturer and contact person is Hanna Holstein (hanna.holstein@med.lu.se phone 046 222 0193). Register at: <https://dawn.bmc.lu.se/index.php?group=6788>  
Log in using your LUCAT-credentials.

### Inbjudan till Strålskyddskurs

Kursen hålls av strålskyddsfysiker Hanna Holstein (hanna.holstein@med.lu.se telefon 046 222 0193) vid två tillfällen: den **18 april kl 9-12 (på svenska)** alternativt den **19 april 9-12 (på engelska)**.

Båda kurserna körs på BMC i Lund i sal BMC I1345!  
Anmäl dig här: <https://dawn.bmc.lu.se/index.php?group=6788>  
Använd din LUCAT-inloggning när du loggar in.

## NU ÄR DET DAGS FÖR HSS KONFERENSEN 2017!

Det är 20 år sedan Högskola och Samhälle i Samverkan bildades och i år arrangeras den 10de konferensen.

Vikten av samverkan mellan olika samhällsaktörer har under de gångna 20 åren växt sig starkare och i år deltar samtliga samhällssektorer.

Programmet är på plats och fylls kontinuerligt på med bidrag.

Här finner du [program](#), [anmälningsslänk](#).

Var med och påverka, diskutera idéer, byt erfarenheter, delta i dynamiska verkstäder och inspireras av intressanta exempel.

Möt Karin Röding, statssekreterare på Utbildningsdepartementet, Marie Wall, startupsansvarig på Näringsdepartementet, Per Runesson, professor i datavetenskap, Maria Andersson, forskare och teknikentreprenör, Pia Kinhult strategisk rådgivare på forskningsanläggningen ESS, och många fler.

Artikeln i HD/Sydsvenskans 8till5. <https://www.8till5.se/2017-03-27/nationell-idekongress-kommer-till-campus>

## INFORMATION TO PHD STUDENTS REGARDING GRAPHENE STUDY

Your organisation is part of the EU's Graphene Flagship project and we would like to inform you that we have an excellent school for students and early career researchers interested in Graphene. Graphene Study 2017 will be held 25-30 June in Gothenburg, Sweden and focus on Electronic and Photonic Devices and their Applications.

More information here: <https://graphene-flagship.eu/graphenestudy/2017/Pages/default.aspx>

We think that many of your PhD Students would benefit from the programme containing lectures from leading experts, workshops, poster sessions and excellent networking opportunities. We would like to kindly ask for your help to make sure they don't miss this information.

Attached is an A3 poster for print and a horizontal and vertical poster for digital screens, as well as two images and a short text (below) that you can use for internal newsletters etc.

### **Register now for Graphene Study**

Graphene Study is the Graphene Flagship's annual school for students and early career researchers. The topic for this year's edition is Electronic and Photonic Devices and their Applications and it will be held in Gothenburg, Sweden in June. Take this opportunity to learn from leading experts and build networks for your future career! Register before 31 March for early bird fees.

<https://graphene-flagship.eu/graphenestudy/2017/Pages/default.aspx>

We also have an ongoing photo contest on Facebook (until 31 March) where first prize is a free pass to Graphene Study. Read more about it here and feel free to share it on your social channels: <https://graphene-flagship.eu/graphenestudy/2017/Pages/Facebook-Contest.aspx>

## INFORMATION MEETING 26 APRIL 15-17 ON PROJECT APPLICATIONS TO THE KNUT AND ALICE WALLENBERG FOUNDATION

<http://fs.blogg.lu.se/information-meeting-on-project-applications-to-the-knut-and-alice-wallen-berg-foundation/>

Date: **26 April 2017, kl 15.00 -17.00**  
 Location: **Pangea**, Geologiska institutionen, Geocentrum II, Sölvegatan 12, Lund  
 Organizers: LTH, Faculty of Medicine, Faculty of Science and Research Services

The meeting is held in English.

### Agenda

**15.00 -15.15** Introduction and purpose with KAW project funding  
 Almut Kelber, Pro-Dean Science, Faculty of Science

**15.15 -15.30** Internal LU process for project applications to KAW  
 Lars Dahlin, Pro-Dean Faculty of Medicine  
 Erik Swietlicki, Assistant Dean for Research LTH  
 Tina Trollås, Research Services

**15.30- 16.00** Applying for project funding from KAW – an evaluator’s perspective  
 Olle Lindvall, Professor Neurology

**16.00 – 16.15** Writing a project application to KAW – a PI’s perspective  
 Sara Linse, Principal Investigator for the KAW project  
 "Physical chemistry of peptide-lipid co-assembly: from lipid-rich to peptide-rich"

**16.15 – 17.00** Questions and discussion

Register [here](#) before **21st April 2017**.

## PASSA PÅ! SAMMANSTÄLLNING FRÅN UNGDOMSBAROMETERN ANG. "STUDIER, KARRIÄR OCH FRAMTID" OCH "MEDIER OCH KOMMUNIKATION " 2 MAJ KL. 11-12 I HOLLYWOOD

Passa på att komma och lyssna på den mycket intressanta sammanställningen från den senaste undersökningen om ungdomars( 15-24 år) åsikter angående "Studier, karriär och framtid" och "Medier och Kommunikation ".

Lovisa Sterner från Ungdomsbarometern berättar om denna on-line undersökning som baserar sig på cirka 16 000 svar under hösten 2016.

Datum: 2 maj  
 Tid: kl. 11:00-12:00  
 Lokal: Hollywood, Kårhuset

## KURSDESIGN MED FOKUS PÅ BLENDED LEARNING

Högskolepedagogiska fördjupningskursen Kursdesign med fokus på blended learning vid AHU som startar i oktober 2017. Kursen huvudsakliga fokus är hur man kan designa för undervisning och lärande i miljöer där digitala verktyg och resurser integreras med undervisningsformer i en klassrumskontext. Kursen motsvarar 3 veckor och sträcker sig över ca 6 månader. Den vänder sig till lärare vid alla LU:s fakulteter och USV, och är kostnadsfri. Man söker som ett lärarlag om minst två lärare som under kursens gång arbetar med ett gemensamt kurs- eller programutvecklingsprojekt.

Mer information om kursen och anmälan här:

<http://www.ahu.lu.se/hogskolepedagogisk-utbildning/universitetsgemensamma-kurser/kurser-hosten-2017/kursdesign-med-fokus-pa-blended-learning/>

## MARIE SKLODOWSKA CURIE INDIVIDUAL FELLOWSHIP TRAINING ACTIVITIES 2017

The Marie Sklodowska Curie Individual Fellowships call for proposal 2017 will be launched on 11 April with deadline on 14 September 2017.

Research Services will offer two training activities in preparation for the call. You may register for either or both:

1. An on-line training course aimed at proposals with Lund University as host institution. The training course is aimed at both supervisor and fellow. It is the supervisor who registers participation.
2. A short information session 4 May aimed at all interested researchers at LU, fellows as well as supervisors.

### The MSCA Individual Fellowships offer opportunities to:

- Recruit an experienced researcher from abroad, or
- Extend a post-doc period for a fellow already at LU for a period of 12-24 months.

Note that a mobility rule applies for the fellowships, i.e. at the deadline for the submission of applications, the fellow can have resided or carried out her main activity in the country of the host organisation for no more than 12 months in the 3 years immediately prior to the deadline.

You can find more information on the MSCA Individual Fellowships [here](#).

### MSCA Individual Fellowships online training course

The course is aimed at proposals with Lund University as host institution. i.e. the scientist in charge at Lund University as well as at the prospective fellow. It will enable both to access a comprehensive set of training tools, including introductory slides with audio, walk-through modules, factsheets and checklists, all available up to the deadline. Staff from Research Services will also be available for support throughout the process.

Start date: 3 April. The course is flexible and the material will be available online until the deadline in September to be used by the supervisor and fellow at their convenience.

Objective of the training course: to provide participants with a good understanding of the principles and evaluation criteria and process of the MSCA-IF. Participants will receive strategic and practical input for writing a competitive application. The application is written jointly by the supervisor and the fellow.

Training: The workshop is run by Yellow Research, a consultancy firm with extensive experience in running MSCA workshops and in pre-submission review of MSCA grants.

Registration: Register for the training course [here](#). Deadline for registration is 22 March. Limited number of places available. It is the supervisor at LU who registers for the course. Supervisors who have a named, eligible fellow at the registration deadline will be prioritized. For questions, please contact Teresia Rindelj [teresia.rindelj@fs.lu.se](mailto:teresia.rindelj@fs.lu.se).

### MSCA Individual Fellowships information seminar

On 4 May, Research Services offers an information seminar for LU researchers interested in either hosting a fellow or going on a fellowship. During the seminar, brief information on the funding scheme will be provided. The main focus, however, will be presentations from LU researchers who have experience from writing a successful MSCA-IF application and from reviewing MSCA-IF proposals. There will be ample time for questions and discussion.

Date and time: 4 May, 13.00-15.00

Venue: Hörsalen, Pufendorfinstitutet, Biskopsgatan 3, Lund

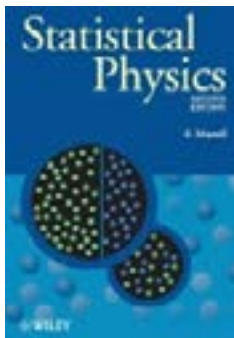

Registration: register via [this link](#) at the latest on 25 April.

Information om utbildningstillfällena återfinns även på webben: <http://fs.blogg.lu.se/marie-sklodowska-curie-individual-fellowship-activities-2017/>
