# LinkedIn

LinkedIn is a [social networking](#) site designed specifically for the business community. The goal of the site is to allow registered members to establish and document networks of people they know and trust professionally.

A LinkedIn member's profile page, which emphasizes skills, employment history and education, has professional network news feeds and a limited number of customizable modules. Basic membership for LinkedIn is free. Network members are called "connections." Unlike other free social networking sites like [Facebook](#) or [Twitter](#), LinkedIn requires connections to have a pre-existing relationship.
